

SOL NOCTIS Profiling machine

“

- Forsfood molding machines are developed to form raw material into round balls. The shaping tools can form balls of a desired diameter.
- Diameters available from 17 to 35 mm .
- The machine is suitable for profiling both snack products and more demanding fine dining products.
- It is suitable for potatoes, different kinds of root vegetables, fruits etc.

”

TECHNICAL DATA

- Length: 1750 mm
- Height: 2150 mm
- Width: 1340 mm
- Weight: approx. 580 kg
- Supply voltage: 400VAC 50 Hz, 3-phase. 16 A
- Water connection: 2/3 "
- Noise level: <80dbA
